We are looking for a UI / UX designer

32-40 hours per week

We are Epiphany RBC, a marketing consultancy agency. We're inspired by how people think and act and operate globally helping businesses grow.

We are looking for a product designer to help us revolutionize market research and turn conventional surveys into fun and meaningful digital conversations.

About you

- You like challenges and solving multifaceted problems.
- You can run solo and collaborate with your team when needed.
- You have working experience, preferably in a creative agency.
- You can support multiple styles of design.
- You have a first class portfolio to prove it.
- You studied design, communication or multimedia design.
- You use Sketch, Photoshop, Illustrator. GitHub, Principle and Framer are a plus.
- Experience with animating interactions and prototypes is a plus.

What will you do?

- Prepare design assets.
- Design new interactive tools.
- Work closely with the rest of design, dev and research teams to optimize product and user experience.
- Explore the possibilities of online conversations.
- Improve the technical capabilities and scalability of surveys.

We offer

- A skilled and international team of designers, frontend developers and research consultants.
- An office in the centre of Amsterdam.
- An opportunity to make a difference.
- Weekly drinks at a local cafe, boating through the Amsterdam canals, lunch together and a nice trip every once in a while.

Interested?

Send your portfolio and motivation letter to Jori at jori.van.den.bosch@epiphany-rbc.com.
