

**If thinking beyond the obvious and working for some of the largest brands in the world is right up your lane, we want to welcome you to Epiphany as our next:**

## **Full Stack Engineer**

### **Our Essence**

Our passion for marketing and facts has defined our mission – to inspire business decisions through consumer stories and research. It's what we like to call **Research Based Consultancy**.

At Epiphany, we do things differently. We tend to go off the beaten track in order to pave ways of reaching a satisfactory moment of an Epiphany. How do we do this? With our data-crunching capabilities and commercial mindset, we are creating impactful insights for some of the world's most ambitious and renowned brands in retail, finance, FMCG, and more. We put the consumer's voice in the center of our decision making and we strive to take research and strategy to a higher level.

### **Epiphany Needs You!**

We are looking for a Full Stack Engineer who will help us revolutionize market research and turn conventional surveys interactions into true conversations. Apart from survey development we are continuously working on new platforms and other products to make our work easier and better. We are looking for a true development multitasker, who likes to solve a wide variety of problems.

### **More specifically, you will**

- Be part of the team of engineers to further build and improve tech solutions which aim to revamp the market research industry.
- Team up with other engineers to implement DDD engineering principles and represent our engineering values.
- Apply your technical and human skills to lead projects to completion. Influence and drive for improvement across scrum teams.
- Take a proactive approach and ownership of the tasks. Monitoring the tasks on production and making sure everything runs smooth and as expected.

## **Are you the Full Stack Engineer we're looking for?**

**For this position, we are looking for someone who**

- Has 4+ years of experience in software engineering.
- Has a Computer Science background.
- Has experience in Frameworks like Vue / React / Angular.
- Has experience in NodeJS / Express.
- Experience in TypeScript is a plus.
- Is familiar with CI/CD Platforms such as Circle CI, GitHub Actions, GitLab Pipelines and cloud solutions like (AWS/Google Cloud).
- Has knowledge of relational (Mysql/Postgre) and NoSQL (MongoDb, Redis) databases.
- Has knowledge of software engineering practices (SOLID, DDD and TDD).
- Is a team-player.
- Is fluent in spoken and written English.
- Resides in The Netherlands.

## **What We're Offering**

- The unique opportunity to have a serious impact on a growing company and our clients.
- Learning and development opportunities within a young, non-hierarchical and dynamic company.
- A fun and diverse working place. We strongly believe in the strength of combining unique values and opinions of people from different cultures and backgrounds.
- A working environment with the freedom to express ideas and follow through with personal initiatives.
- The opportunity to work in a brand-new office in the Silicon Canals of Amsterdam.
- Company benefits like lunch at the office, Friday afternoon drinks, a yearly trip and boating on the canals when the weather allows us to.

## **Are you interested?**

Have we sparked your interest and do you feel you are the person we're looking for? Great! Send us your resume and cover letter to [javidan.guliyev@epiphany-rbc.com](mailto:javidan.guliyev@epiphany-rbc.com).
