

Glorious is looking for an awesome

UI Designer

3+ years experience

Glorious Conversation Design

We are a service agency working for insight specialists in the market research industry. We design, develop and manage online surveys for quantitative research and provide smart tools to make the whole process from questionnaire writing to reporting easier and faster for our clients. Glorious is a mix of researchers, designers, developers and project managers.

About you

- ✓ You like challenges and solving multifaceted problems.
- ✓ You can run solo and collaborate with your team when needed.
- ✓ You have 3+ years of working experience either in an in-house team or in a creative agency.
- ✓ You can support multiple styles of design and have a first class portfolio to prove it.
- ✓ You studied visual design, UI, UX, multimedia design or similar.
- ✓ You use Sketch, Photoshop, Illustrator. GitHub, Principle, Framer or After Effects are a plus.
- ✓ Experience with animating interactions and prototypes is a plus.

What will you do?

- ✔ Prepare design assets.
- ✔ Design new interactive tools, create prototypes and work closely with the design, dev and research teams to optimize product and user experience.
- ✔ Explore the possibilities of online conversations and conversation design.
- ✔ Design for our website.

We offer

- ✔ A skilled and international team of designers, developers and project managers.
- ✔ An office in the centre of Amsterdam.
- ✔ An opportunity to make a difference.
- ✔ Weekly drinks at a local cafe, boating through the Amsterdam canals, lunch together and a nice trip every once in a while.

Interested? Forward us your portfolio and CV.
