

We are **Epiphany RBC**, a **marketing consultancy agency**, inspired by how **people** think and act, **operating globally** with the aim to help **grow businesses**.

**And we are looking for a medior/senior Front-end developer!**

### Who are we looking for?

We are looking for a Frontend developer who will help us revolutionize market research and turn conventional surveys into true conversations. Apart from survey development we are continuously working on new platforms, data visualization and other products to make our lives and the lives of our clients easier.

### Stack?

- CSS - LESS/Sass
- JavaScript
- Vue.js

### What will you do?

- Give your creative input about the interactions we have with survey respondents.
- Work closely together with a team of designers, fellow developers (junior - senior) and research consultants.
- Help train and guide junior developers, including doing code reviews
- Work on amazing surveys for global clients.
- Work on websites, tools and dashboards that we create for our clients and ourselves.

## What to expect?

- You work for the department called 'Glorious'. We are responsible for the development and creation of digital materials.
- Work with a fun and international team.
- The office is located in the city center (Jordaan) of Amsterdam, in a nice 'grachtenpand' at the Prinsengracht.
- You are an important part of the whole, huge opportunity to make a difference.
- Great team spirit (weekly drinks at a local café, boating through the Amsterdam canals, having lunch together and a nice trip every once in a while).

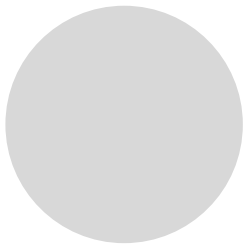

## Let's meet!

Get in touch with us if you want to know more!
