

Glorious is looking for an awesome

Full Stack Developer

Glorious Conversation Design

We are a service agency working for insight specialists in the market research industry. We design, develop and manage online surveys for quantitative research and provide smart tools to make the whole process from questionnaire writing to reporting easier and faster for our clients. Glorious is a mix of researchers, designers, developers and project managers.

Who are we looking for?

We are looking for a Full Stack Developer who will help us revolutionize market research and turn conventional surveys into true conversations. Apart from survey development we are continuously working on new platforms and other products to make our lives and the lives of our clients easier. We are looking for a true development multitasker, who likes to solve a wide variety of problems.

Stack?

- ✓ Node.js / Javascript (ES2015 > async/await, etc)
- ✓ HTML5 + CSS3
- ✓ Vue.js (or willingness to learn)
- ✓ MongoDB (or willingness of learn)
- ✓ AWS (or willingness to learn)

We offer

- ✔ A skilled and international team of designers, developers and project managers.
- ✔ An office in the centre of Amsterdam.
- ✔ An opportunity to make a difference.
- ✔ Weekly drinks at a local cafe, boating through the Amsterdam canals, lunch together and a nice trip every once in a while.

Interested? Forward us your CV and tell us why you fit the job.

Please note:

- ✔ Applicants have to currently live in or around Amsterdam
- ✔ At Epiphany, we are building a team for the future, we hope to welcome you into our growing family

Let us know if you have any questions,
