

Glorious is looking for an awesome

Technical Project Manager

Medior - Senior

Glorious Conversation Design

We are a service agency working for insight specialists in the market research industry. We design, develop and manage online surveys for quantitative research and provide smart tools to make the whole process from questionnaire writing to reporting easier and faster for our clients. Glorious is a mix of researchers, designers, developers and project managers.

Who are we looking for?

A technical project manager who will help us coordinate the operational part of our international research projects. Your job starts when a questionnaire is ready for programming and ends when the data is delivered to the internal client.

More specifically...

- ✓ You are familiar with (market) research and running fieldwork.
- ✓ You are responsible for the operational part of our projects.
- ✓ Work with consultants, designers and developers to create amazing, interactive surveys
- ✓ Manage external partners (for programming, translations, fieldwork).

What will you do?

- ✓ Your basic programming/computer skills (at least some HTML knowledge) allow you to make changes in projects that are run on our research platform (Decipher).
- ✓ Your structured approach and strong feeling of responsibility results in timely delivered projects.
- ✓ Your flexibility welcomes changed plans, even late in the process.
- ✓ You are able to prioritize and keep it cool in the heat of the moment.
- ✓ You will be working on projects for big, international clients that will be seen by thousands of people all around the globe.

We offer

- ✓ A skilled and international team of designers, developers and project managers.
- ✓ An office in the centre of Amsterdam.
- ✓ An opportunity to make a difference.
- ✓ Weekly drinks at a local cafe, boating through the Amsterdam canals, lunch together and a nice trip every once in a while.

Interested? Forward us your CV and tell us why you fit the job.

Let us know if you have any questions,
